IFMSA-Poland

Międzynarodowe Stowarzyszenie
Studentów Medycyny

The International Federation of Medical Students' Associations (IFMSA), founded in 1951, is one of the world's oldest and largest student-run organizations. It represents, connects and engages every day with medical students from 136 national members organizations in 127 countries around the globe.

IFMSA-Poland

Międzynarodowe Stowarzyszenie
Studentów Medycyny

Our work is divided into four main global health areas:

- Public Health,
- Sexual and Reproductive Health,
 - Medical Education
- Human Rights and Peace.

IFMSA-Poland

Międzynarodowe Stowarzyszenie
Studentów Medycyny

Each year, we organize over 13,000 [clinical](#) and [research exchanges](#) programs for our students to explore innovations in medicine, healthcare systems and healthcare delivery in other settings. IFMSA brings people together to exchange, discuss and initiate projects to create a healthier world. It trains its members to give them the skills and resources needed to be health leaders. It advocates for the pressing issues that matter to us to shape the world we want. And it does deliver: our projects, our campaigns and our activities positively impact the physicians-to be, the communities they serve, as well as the health systems around the world in which they practice as a trainee and eventually a medical doctor.

IFMSA-Poland

Together with our colleagues in more than 121 countries, we are involved in a global network that connects thousands of medical students. Our organization gives medical students the opportunities they need to go beyond the hospital walls, and lecture halls. Motivated, intelligent young people are determined to look beyond the doors of their medical school to see the world outside.

IFMSA-Poland

Międzynarodowe Stowarzyszenie
Studentów Medycyny

IFMSA-Poland send each year about 500 students from fifteen Polish Medical Universities to study with colleagues from other countries, other continents, other culture... The same amount of young, well motivated people from more than 80 countries choose Poland for their clerkships and spend the holidays in our country.

Our members organize each year many projects and campaigns on major diseases such as HIV/AIDS, smoking and cardiovascular diseases or on important problems of medical students in Poland.

By meeting active students from other medical universities, members of IFMSA-Poland share their ideas, skills and experience about how students can act on the issues that motivate them.

Twice a year we meet in different places in Poland, spending 3 days on trainings and discussions.
